

THE GREEN LR3000

LASER CONCRETE LEVELLER

Levelling and vibrating fresh concrete with laser guidance.

AUGER CONVEYOR FOR EXCESS CONCRETE REMOVAL

During levelling, the auger moves excess concrete to the side and helps achieve an even finish.

3.2 m

WORKING WIDTH

520 kg

MACHINE WEIGHT

DIN 18202

FLATNESS STANDARD

1,500 m²

IN 8 HOURS*

DRIVING ON REINFORCEMENT MESH

Lightweight design for working on reinforcement mesh.

LEVELLING AND VIBRATING

Levelling beam and integrated vibrator.

TRANSPORT IN A VAN

Mobile design for moving between construction sites.

ONE OPERATOR

Laser-controlled height of the levelling beam.

ENGINE

Honda GX630 - petrol

DRIVE

Hydraulic

* Capacity depends on concrete, organisation and working conditions.
