

INDUSTRIAL DUST EXTRACTION

SG 200

Compact industrial vacuum cleaner for safe and efficient extraction of dry material during grinding and floor treatment.

Powerful extraction. Easy handling.

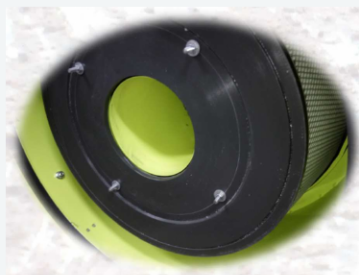

Extracted material is collected in a standard drum. The design enables quick drum changes, while HEPA H13 filtration retains fine particles and helps keep the work environment clean.

MOTOR	AIRFLOW	VACUUM	WEIGHT
4 x 1.2 kW / 400 V	806 m3/h	22 kPa	76 kg
DIMENSIONS (L x W x H)	APPLICATION	FILTER	COLLECTION
900 x 820 x 1800 mm	dry materials	HEPA H13	standard drum

KEY BENEFITS

- Lightweight vacuum cleaner design
- Extracted material stored in a standard drum
- Quality construction
- Easy handling
- Emergency stop
- HEPA H13 filtration

Clean work environment and controlled dust.
