

GRINDING AND POLISHING

GR 4

Compact professional grinding machine for precise processing of concrete, terrazzo and natural stone.

For demanding daily work.

Adjustable grinding weight, electronic speed control and dry or wet grinding enable stable work on different materials and surface requirements.

GRINDING WIDTH	MOTOR	SPEED	WEIGHT
456 mm	6.4 kW / 400 V / 50 Hz / 16 A	700-1500 rpm	276 kg
DIMENSIONS (L x W x H)	DRIVE	GRINDING WEIGHT	TOOLS
1240 x 460 x 1140 mm	manual	121-205 kg	8 discs Dia. 150 mm

KEY BENEFITS

- Grinding right to the edge and wall
- Closed dust extraction system with vacuum
- High-performance DANFOSS frequency converter
- LCD machine operation monitoring
- Reduced-vibration operation
- Dry and wet grinding
- Adjustable grinding weight

USE: concrete, granite, terrazzo, marble and parquet

Choose the right power and width for your surface.
